

CONTINUATION TO SF-1449 RFP NUMBER SDA200-12-R-0005 SCHEDULE OF SUPPLIES/SERVICES, BLOCK 20	
1	<p>Citation: Section 1.4 Lawn care, subsection 1.4.1 Grass Cutting states: “The Contractor shall maintain the height of grass between 4 and 6 centimeters. The Contractor shall supply all equipment and fuels for the grass care requirement. Loose grass must be removed from the site after mowing. Tree roots growing on the surface must be protected for cutting equipment and the area around the roots must, if necessary, be hand cut.</p> <p>Question: Is the golf “putting green area” located in the middle of the lawn part of the maintenance?</p> <p>Answer: The golf “putting green area” is artificial grass on a hard surface. Therefore, its appearance shall be maintained in its context (i.e. removal of debris, dead leaves etc.)</p>
2	<p>Citation: Section 1.13 Snow and ice removal, subsection 1.13.1 states: “The Contractor is to remove snow and ice from all walkways, to include exterior walkways at all three work sites. The standard for snow/ice removal shall be in accordance with local regulations – whenever the walkways are icy, slippery or covered by snow. The Contractor shall perform removal of snow/ice as required including Saturdays, Sundays and all Danish and American holidays.”</p> <p>Question: Is it all paved- and gem stones paths in the gardens of the DCR (Strandvejen 190) and CMR (Strandvejen 259) that must be removed from snow and ice?</p> <p>Answer: The Contractor is responsible to clear all walkways, to include exterior walkways at all three sites. That includes all paved- and gem stones paths in the gardens of the DCR (Strandvejen 190) and CMR (Strandvejen 259).</p>
